ARRIVED 1:25 PM.

Mrs. came out back of M.H. (office) spoke with her briefly about old permit. She said she didn't know where tank or field was. Addition is already built, she said she would get her husband from gravel pit.

They returned several mins later. I shook hand with Mr Merritt and introduced myself. I asked where tank was? He said under Rose bushes and wall and line was next to bamboo stand. I started to discuss set back from tank and was interrupted. "I ain't ~~under~~ uncovering a G.D. thing! We payed our money you are suppose to come out and sign off. I told him I could not sign off. He said did I know his lawyer or Judge Barboun I said I did not. He continued to curse about inspector and their stupidity.

I told him I guess I was finished and started toward my truck. He continued his verbal assault, cursing. He said he had power; did not need us. I told him I did not have to listen to his profanity. He called me a stupid son of a bitch. He said to ask Greg Grimes about him. I got in the truck he asked me how many septic tanks I had put in. I responded that I had installed tanks. I started the truck he approached the vehicle and yelled get out of here you stupid M.F.
